# VEG SOLID - 固体栲胶

## ADVANTAGES OF USING TANNING SOLID

→ VEG SOLID can be used in Tanning and Retanning processes for Chrome tanned and Vegetable tanned leather.

可用于铬鞣和植鞣皮革的鞣制和复鞣过程。

→ VEG SOLID can replace any kind of vegetable tanning agents as well as replacement syntans (Phenolic based) with respective required characters.

可替代传统植物栲胶，也可替代具有不同要求特性的合成鞣剂(酚醛类)

→ VEG SOLID gives fine and short nap to Suede and Nubuck leathers.

给绒面革和磨砂革带来细而短的绒头。

→ VEG SOLIDS gives excellent dyeability.

染色性能优异

→ VEG SOLID can be used for Shoes, Goods, Garments, Belts and all type of leathers.

广泛应用于各种类型皮革：鞋革，服装革，皮带革，皮革制品等

→ VEG SOLID itself having good tanning potentiality, so it is not necessary to do Rechroming in Retanning Process.

产品本身具有良好的鞣制性能，因此在复鞣过程中不需要再进行复铬。
